

M.O.U. Seasonal Report Form

Please print your name where indicated on the first 3 pages of this form.

Please give dates, exact locations and number of birds for species that are beyond their usual range or out of season, are part of an unusual irruption or major invasion (e.g., Great Gray Owl), or are of special concern, and for species marked with an asterisk (*). Also note species occurring in greater or fewer numbers than expected.

Document with written details or photos any species that is listed in bold, is far out of range or season, or is not listed on this form. Consult Birds in Minnesota (Janssen 1987) for expected range, season, and earliest/latest dates for each species. (When in doubt, document!) any unusual data to further assist the editors.

Use a check mark or the word "base" in the Location/Number column for observations from your base county.

Observer(s) _____

Base _____
Town County

- _____ **SPRING** (March–May) 20 _____
 Indicate peak dates, maximum numbers, and location of peak migration. Also list dates of earliest and latest migrants.
- _____ **SUMMER** (June–July) 20 _____
 Complete separate nest and brood cards and return them with your Summer Seasonal Report.
- _____ **FALL** (August–November) 20 _____
 Indicate peak dates, maximum numbers, and location of peak migration. Also list dates of earliest and latest migrants.
- _____ **WINTER** (December–February) 20 _____ - _____

Return this form promptly at the end of each season, i.e., early June for Spring, early August for Summer, early December for Fall, and early March for Winter. Thanks for your legible data and cheerful cooperation.
